model HPD-4X-ss

Hinged Printer Door, NEMA-4X, stainless steel

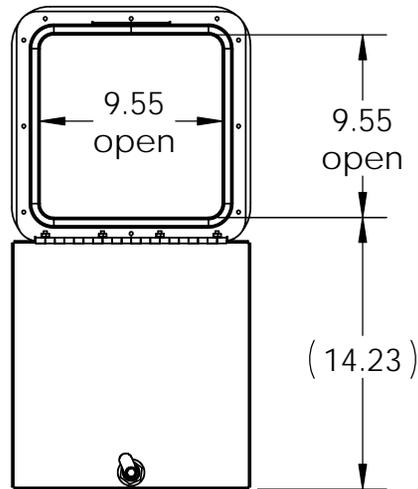

Front View

Right Side View

HPD-4X is intended as a remote entry into a NEMA Type-4X enclosure to gain quick access to a printer or any internal device without opening the enclosure main door. The door components are 304 stainless steel with a #3F finish, and the installation hardware is stainless steel. The latch is a hand operated thumb knob style compression latch. The door will install with the free swinging hinge oriented in any direction.
