# PROTECTING THE PRODUCTS *THAT SERVE PEOPLE*

## Our Mission

To help customers avoid costly downtime and achieve the maximum life cycle and investment from their electronic devices by providing state-of-the-art enclosures that protect, organize and secure equipment in any environment.

## Our Goal

To be recognized as the leader in the enclosure market in quality, service, application and affordability

## Our Pledge

To provide our customers with the best, fastest and most flexible service in the industry.

## Our Guarantee

Forever and a day – If your IceStation, IceBox or NetStation ever fails due to material defect or workmanship, we will repair the damaged part or replace the part free of charge.

## ITSENCLOSURES

Located 36 miles southeast of Pittsburgh in Mt. Pleasant, Pennsylvania, ITSENCLOSURES designs and builds the most durable computer, electronic, printer, and monitor enclosure solutions on the market.

You may know us as Integration Technology Systems or by our product names: **IceStation, ViewStation, IceBox, or NetStation.**

For over 3 decades, ITSENCLOSURES has been helping companies protect their technology investments and realize the maximum life cycle of equipment. Our NEMA rated enclosures are ideal for any and all environments where dust, dirt and exposure to corrosives threaten the performance of your equipment.

ITSENCLOSURES is dedicated to complete customer satisfaction. Our unique blend of direct sales and authorized value-add resellers allow us to serve our customers with more efficiency and flexibility than our competitors.

ITSENCLOSURES ships directly from stock, meaning that an order for an in-stock item should be ready to ship within 2-3 business days. We assemble your order in-house, so if you need a custom item, we are ready to build it as soon as you call. Most ITSENCLOSURES products are shipped fully assembled, and ready to use for your convenience!

# TITAN

## Features & Benefits

**IP SERIES** — Enclosures designed specifically for housing your computer only. Available in desktop or tower configurations with a NEMA 12 rating.

**ID SERIES** — Desktop industrial enclosures for monitors and PC's. Various options include painted steel and stainless steel with NEMA 12, 4 and 4X ratings.

**PB SERIES** — Desktop and free-standing enclosures for printers – label, barcode or desktop. Available in NEMA 12 and 4X ratings.

**More Info:** [itsenclosures.com/products](http://itsenclosures.com/products)

Our IceStation line offers an enclosure product that is perfect for your industrial environment. With options ranging in NEMA 12, 4 and 4X, you can protect your PC and other electronics from dust, humidity, liquids and corrosive materials. The IceStation line of enclosure products range in size from desktop to stand-up units.

**IS SERIES** — Stand-up enclosures that can accommodate a computer, monitor, printer and various other electronics. Options include enclosures with keyboard trays and integrated keyboard drawers. Available in NEMA 12, 4 and 4X ratings.

**IR SERIES** — Industrial enclosures for servers, routers, and other rack mount equipment. Options for 19" or 24" wide rack rails in the front and rear of the enclosure. Available in NEMA 12, 4 and 4X ratings.

# NETSTATION

## Vented Rack Enclosures

### NSV-WE-243:

The 24-inch rack mount enclosure is wall mountable and features 19" mounting rails that are fully adjustable. The front & rear doors are key lockable for security and field reversible without the need of special tools. Available with a tempered safety glass window.

### NS30 & NS40:

Perfect for space-sensitive applications, the NS30 & NS40 network enclosures feature a lockable front & rear door with easy access to your equipment. Openings in the bottom and top of the enclosure allow for cable entry and exit.

### NS80:

The NS80's 42U of mounting space provides enough room to organize a wide variety of network equipment. The removable side panels allow additional enclosures to be bolted together for modular applications and locked for security.

## FEATURES & BENEFITS:

- Easy access for cable pass through in the top & bottom of enclosure
- Lockable & removable quick access side panels (NS30, NS40, NS80)
- High vent front & rear doors available
- Adjustable 19" wide rack mounting rails
- Top mounted enclosure fan systems are available for cooling
- Various shelving, power strip, & cable management options available

# POPULAR CONFIGURATIONS

## READY TO USE UPON DELIVERY

Mix and match compatible enclosures to develop a “custom” enclosure to fit your needs!

- Folding shelves, bolt down legs, sliding shelf brackets, power cords, rack channel, and hinged printer doors are popular options for our stand-up enclosures.
- Customize any of our desktop enclosures with a pedestal (bolt down or mobile), wall mount, keyboard drawer, or sealed cable entry gland
- Panel mount, solid or full-view doors are options offered on all of our enclosures.
- Thermal management ranging from filtered fans, vortex cooling units, air conditioners and heaters are available to design the perfect enclosure environment.
- We look forward to working with you on your next custom enclosure project!
