The Worldwide Leader In Proactive Environment Monitoring Since 1988

Environment factors can cause major problems for your critical facilities and assets. Temperature, humidity, flood, power, smoke, and other environmental conditions can negatively affect data centers, warehouses, manufacturing, and facilities of all types. Even a slight change in temperature or humidity, or the introduction of water or smoke, can spell disaster for valuable equipment, property, people, or the business.

AVTECH has spent more than 30 years providing solutions that proactively monitor the environment and help warn of changes that might cause problems. Room Alert products are a critical part of your business continuity plan and are helping protect facilities in 186 of 196 countries, 98% of the Fortune 1000, the United Nations, Pentagon, FBI, and thousands of other facilities worldwide. You can trust Room Alert to protect your important facilities and assets.

Designed, Built, And Supported In The USA

Room Alert monitors, sensors and software are designed and supported from our headquarters in Warren, Rhode Island. All our products are manufactured in the United States in ISO 9001 certified facilities to ensure the highest quality. Users can monitor Room Alert using our Room Alert Account portal, our local management software, directly from Room Alert firmware, or any professional third-party SNMP monitoring platform.

Our users depend on Room Alert to make sure their equipment and facilities are protected against damage or downtime. We take that peace of mind to heart and ensure that all our products and services will perform for years after purchase with Lifetime Support and Lifetime Firmware Updates.

Richard Grundy, President & COO; Anne Sigourney, CFO; Michael Sigourney, Founder & CEO

Patented And Award Winning

Every Room Alert user has access to our patented Monitor360™ technology as part of our Room Alert Account portal. Take your environment monitoring and facility management to the next level by using Monitor360 to build virtual sensors and alerts that provide deeper insight into your facility. Room Alert users will not only know that they are receiving an alert, they will know exactly why conditions in their facility are in an alarm state, allowing them to respond quickly to minimize downtime and damage.

Room Alert is an award-winning platform that is designed to be ready to protect your facility within minutes of installing it in your facility. Our countless online resources, product specialists and support team are here to assist with whatever monitoring needs you may have.

Room *Alert* is 'Environment Monitoring Made Easy... *Don't Wait Until It's Too Late!*'
